

First person in my family to attend a college. Saddleback was very nice and rated as one of the best schools in the country. I was glad to be back in California once again. I took all of the business classes and graphic design classes they had to offer.

Most of the classes were at night after work. I attended for almost two years but then life got in the way. I also discovered that I'd need another two years of classes to get an AA degree or meet any transfer requirements. My Mother eventually beat me to graduation a few years later when she graduated with multiple degrees from that same school!
